

Environmental Policy

We are committed to the protection and improvement of the environment and recognise our responsibility to manage and minimise the environmental impacts of our activities, products and services. To achieve this, we will operate an environmental management system to meet the requirements of ISO 14001:2015 management system standard.

We are committed to:

- identifying the significant environmental aspects and impacts associated with our activities.
- developing suitable objectives, targets and management programmes, applying appropriate operational procedures to minimise our most significant impacts
- complying with all applicable legislation, regulations or other requirements relating to our activities and the environment
- preventing pollution, minimise our inputs of utilities and resources and outputs of emissions to the atmosphere, effluents to waters / sewers and wastes.
- ensuring that our environmental responsibilities are defined, communicated and understood at all levels within our organisation through the provision of appropriate training where relevant.
- communicating, co-operating and responding to the views of interested parties, including clients and the general public, on environmental issues where practicable.
- continually reviewing the suitability of this policy and our environmental management activities
- striving for continual improvement in our overall environmental performance.
