

WIRELESS GS6 RAISES THE BAR ON OVER HEIGHT HAZARD PROTECTION

The Complete GS6 Over Height Hazard Protection System

“Using **GS6 INSTABOOM** on a full closure of the M25 was quicker to deploy than a traditional GS6 set up. It vastly improved site control, safety and compliance”

*Dale Hicks, TM Manager,
Connect Plus /
Balfour Beatty*

INSTABOOM Wireless GS6 identifies any over height vehicle and triggers a full road closure, via the mobile barrier, securing the lane from an overhead strike.

Compatible with any **INSTABOOM** or **SOSEC** barrier for all over height hazard protection, **Wireless GS6** is designed for use on high speed networks, highway closures and track side projects. **INSTABOOM GS6** is fitted with full telematics as standard and UK wide managed service providing instant email alerts of OH hazard alerts.

CLOSURES – instant lane closure when over height breach detected

SAFE – reliable over height hazard protection system

INSTANT – installed in minutes with any INSTABOOM or SOSEC barrier

TELEMATICS – instant hazard alerts and optimal fleet performance

PORTABLE – simple trolley design or 2 person lift

SOLAR – hybrid /110V top up provides upto 21 days of run time between charging
