

CIVIL WORKS

LAYING THE GROUND WORK FOR SUCCESS

P&D Specialist Services delivers professional civil engineering works to support highways, infrastructure, and technology installations across the UK. With over 20 years of industry experience, P&D provides fully integrated civils, electrical, and project management services, ensuring safe, compliant, and efficient project delivery from survey through to installation and maintenance.

Operating nationwide, P&D specialises in working within live highway environments, public spaces, and safety-critical locations, offering turnkey civils solutions that reduce contractor interfaces, programme delays, and project risk.

CORE CIVILS CAPABILITIES

P&D provides comprehensive groundwork and civil engineering services for both temporary and permanent infrastructure projects, covering everything from foundations and structural bases to ducting, trenching, cable containment, and site preparation, as well as enabling works and specialist civils support for CCTV, ITS, EV, fibre, and wider communications infrastructure deployments.

PROJECT MANAGEMENT & DELIVERY

P&D adopts a structured delivery model to ensure quality, transparency, and programme certainty, with a dedicated Project Manager, shared scheduling and milestone tracking, detailed planning and progress reporting, on-site quality inspections, comprehensive documentation, and clear communication throughout —ensuring every project is delivered safely, on time, and within budget.

HIGHWAYS & ROAD SAFETY SCHEMES / LOCAL AUTHORITIES / INFRASTRUCTURE & TECHNOLOGY PROVIDERS / PUBLIC FACILITIES & CAR PARKS / TOWN CENTRE & PUBLIC REALM PROJECTS / EV CHARGING INFRASTRUCTURE

INTEGRATED TURNKEY APPROACH

P&D's integrated turnkey approach combines in-house civils, electrical, and technology installation services under one provider, eliminating the need for multiple contractors. This streamlined model improves site coordination, reduces reliance on subcontractors, and accelerates installation programmes while maintaining cost efficiency. The result is a seamless, end-to-end infrastructure deployment delivered with greater control, reliability, and operational efficiency.

HEALTH, SAFETY & ENVIRONMENTAL COMMITMENT

Safety is central to all civils operations, particularly in live carriageways and public environments. P&D implements robust safe systems of work, ongoing staff training, and environmentally responsible practices, including efficient resource planning and sustainable operational methods.
